

Overview:

- Throw in accuracy: 87.1% | Opponent throw in accuracy: 90.9%
- Best overall passing accuracy this season 80.9%
- **Finally hit 72% forward passing accuracy goal**
- Are passes when attacking the right flank tended to be backward
- Carter and Jonah's percentage of passes that were forward were both below 45%
- The left side was 11% more accurate passing into the attacking third than the right side.
- **Best defensive duels accuracy this year (73.7%) by a significant margin (closest is 69.8%)**
- Jonah, Adam, and James won a lot of defensive duels (>80%)
- We minimized defensive duels close to the corners and top of the box.
- **Offensive duels accuracy was extremely low at 27%**
- Offensive duels was the worst win rate this season
- We also did not have a ton of offensive duels and taking players on which was also the least amount of offensive duels this season
- Kai lost all 13 of his offensive duels
- Max increased his offensive duels win rate by a lot compared to previous games
- Midfield won a majority of their offensive duels
- 60% of CSUN's shots were outside of the box
- 12/15 of CSUN's shots were below .1 xG the other three were only .21, .21, and .24
- **Majority of CSUN's chance origins were in our attacking half**
- Only 1 of the 13 shots that wasn't a free kick was off of a counter attack most of CSUN's opportunities consisted of 7+ passes

Passing

- 60.7% of forward passes were on the right side while only 30.6% were on the left side | different from previous games where majority was on the left side
- 45.8% of successful passes into the attacking third were on the left and 38.8% of successful passes into the attacking third were on the right side
- The left side was 11% more accurate passing into the attacking third than the right side.

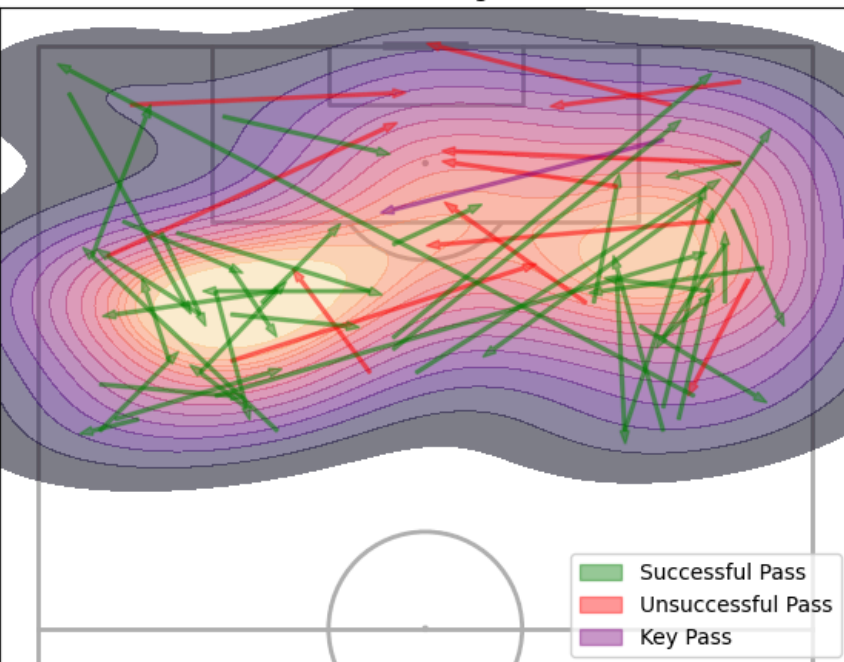

- Almost everyone's passing accuracy is above 75% even our attacking players passing accuracy was high
- Carter and Jonah's percentage of passes that were forward were both below 45%
